Projects

Spacing Out

Responsive astronomy website, that uses NASA's API, model viewer to display interactive 3D models and bootstrap,.

Pacman Game

I created this project to explore HTML canvas and JavaScript DOM.

Ballet Studio Website

In this project I developed a responsive ballet studio theme website using media queries.

Native Furniture App (UX-UI Design)

I used Figma to create UI components, wireframes, and prototypes. I also, conducted user testing, user personas, and a style tile to improve my design.

WORK EXPERIENCE

Cook- Pastry Cook

2018-present

Dessert Lady - Toronto, Canada

- Creatively collaborated with the head chef to invent new dishes for the weekly special
- Keen attention to details proven through the ability to bake and prepare menu items of excellent quality consistently
- Supervised and trained new staff members
- Efficiently prepared orders within 10 mins which demonstrates time management skills and ability to work under pressure
- Effectively managed stock and inventories for the day and the week
- When needed helped at the front of the house making drinks, helping customers with their orders, and answering phone calls.
- Communicated effectively messages, updates, concerns to other team members, and superiors.
- Worked in teams to be able to finish orders efficiently on time.
